INFINITI WETSUIT

LOW PILE

FEATURED IN THE
COMP X WETSUIT

FDA STATEMENT

"THE FDA HAS DETERMINED THAT CELLIANT PRODUCTS ARE MEDICAL DEVICES AS DEFINED IN SECTION 201(H) OF THE FEDERAL FOOD, DRUG AND COSMETIC ACT AND ARE GENERAL WELLNESS PRODUCTS."

THE OFFICIAL INDICATION FOR USE (IFU) IS: TEMPORARILY PROMOTING INCREASED LOCAL BLOOD FLOW AT THE SITE OF APPLICATION IN HEALTHY INDIVIDUALS.

- INCREASE/MORE ENERGY
- INCREASE THERMAL ENERGY
- THIS ENERGY PENETRATES INTO THE MUSCLE AND TISSUE TO PROMOTE A TEMPORARY INCREASE IN LOCAL BLOOD FLOW
- BETTER/MORE ENDURANCE
- FASTER/QUICKER RECOVERY
- ENHANCED/INCREASED PERFORMANCE
- INCREASE/ENHANCE/MORE SPEED
- IMPROVE/INCREASE STRENGTH
- INCREASE/MORE STAMINA
- RECYCLED HUMAN ENERGY
- SUPPORTS HEAT GENERATION

INFRARED PRODUCTION: INFINITI / COMP X - XCEL PREMIUM WETSUITS

2001 - 537

FEATURE GUIDE

CELLIANT BLACK HIGH PILE W/ HOLLOW FIBERS

Next generation TDC with enhanced heat-retaining minerals to maintain the warmth generated through the Infrared Process, with brushed hollow fibers enhancing the air particles trapped between your body and suit.

CELLIANT BLACK JACQUARD

Next generation TDC with enhanced heat-retaining minerals to maintain the warmth generated through the Infrared Process.

CHANNEL FLEX

Channel Flex is a Hydrophobic Channeled textile which has great stretch, reduced weight and repels water.

RADIANT REBOUND

This latest advancement utilizes a METAL lining under the textile that blocks cold temperatures from penetrating the outer layer and reflects heat generated within the wetsuit back towards the body, keeping you in a constant state of warmth.

THERMO DRY CELLIANT (TDC)

Rare, earth mineral-based fiber woven into a smart textile, which increases blood flow to muscle tissue by transferring the body's naturally produced heat into infrared energy. (Vasodilation)

THERMO LITE

A lightweight, thermo-generating yarn to maximize warmth without adding weight.

NANOPRENE LITE JAPANESE LIMESTONE

Eco-friendly, limestone-based neoprene with unrivaled memory and rebound that is lighter, warmer, and softer than the average neoprene.

SUPERPRENE JAPANESE LIMESTONE

Eco-friendly, limestone-based neoprene that is super soft and light.

LIGHTWEIGHT, QUICK-DRY FIBER

Hydrophobic fiber repels water, minimizing absorption to stay lightweight during use.

FUSIONX TAPE

The next generation precision tape technology, applied by a machined heat-pressure process which bonds tape directly to suit ensuring maximum seam durability while eliminating need for excess glue that causes irritation.

ECO-FRIENDLY WATER-BASED GLUE

Water-based glue providing premium durability and bonds while being environmentally conscious.

TRIPLE GLUED AND BLIND STITCH

A water-tight seam construction where foam edges are glued multiple times before being slammed together creating air/water-tight seal, then stitched a quarter way through the foam to give it the strength needed.

PERFORMANCE STRETCH

A multi-directional weave with spandex blend for superior stretch and performance.

STITCH-FREE POWER SEAM

Water-tight, stitch-free seam sealing technology providing lightweight, flexible, and durable warmth.

"S" SEAL

Poly-Urethane seam protection for the outer seam and rack appeal.

GLIDE SKIN COLLAR

Durable smooth skin collar creating a water-tight seal to prevent flushing.

DRYLOCK WRIST SEAL

Seamless doughnut-tapered cuff to prevent flushing.

NEXSKIN SEALS

Liquid neoprene seals at wrist and/or ankles to prevent flushing.

BACK KNEE FLEX GROOVES

Articulated pre-bent knee with grooves to prevent folding behind the knee.

WATERPROOF ZIPPER

Japanese YKK Aquaseal waterproof zipper with a high pressure waterproof rating.

SEMI-DRY ZIPPER

Zip closure with a silicone strip to seal preventing flushing.

INFINITI LIMITED

REFLECTED INTERNAL HEAT DISTRIBUTION

THE INFINITI LTD COMBINES THE BEST OF THE INFINITI SERIES WITH XCEL'S NEWEST TECHNOLOGIES: CHANNEL FLEX AND RADIANT REBOUND. THIS LATEST ADVANCEMENT UTILIZES A METAL LINING UNDER THE TEXTILE THAT BLOCKS COLD TEMPERATURES FROM PENETRATING THE OUTER LAYER AND REFLECTS HEAT GENERATED WITHIN THE WETSUIT BACK TOWARDS THE BODY, KEEPING YOU IN A CONSTANT STATE OF WARMTH.
